

27th International Conference Ecological Truth & Environmental Research - EcoTER'19

18-21 June 2019
Bor Lake, Bor, Serbia

The Conference intends to bring together innovative academics and industrial experts to a common forum in order to provide a good platform for researchers, to meet and share the cutting-edge developments in the fields of ecology, technology, chemical engineering, environmental protection, biology, and environmental management.

For more information,
please visit the official
website of the Conference
www.eco.tfbor.bg.ac.rs

The participants of the EcoTER conference will have the opportunity to submit papers and discuss the following topics related to environmental impacts on our daily lives:

- Environmental monitoring and impact assessment
- Urban and industrial ecology
- Air, water and soil pollution, prevention and control
- Protection and preservation of natural resources
- Ecological ethics and environmental education
- Ecotoxicology and environmental safety
- Hazardous materials and green technologies
- Human and ecological risk assessment
- Agriculture: nutrition, organic food and health impacts
- Alternative energy: efficiency and environmental policy
- Greenhouse effect and global climate change
- Sustainable development and green economy
- Environmental biology
- Environmental and material flow management
- Life-Cycle-Analysis (LCA)

**Extended date of full paper submission:
10 May 2019**

We look forward to hearing from you and hope you'll consider joining us in making the Conference successful.

Best regards,
President of the Organizing Committee

Prof. Dr Snežana Šerbula
University of Belgrade, Technical Faculty in Bor
