Fundamental and Applied Aspects of
Physical Chemistry*

PHYSICAL CHEMISTRY 2016

26-30 September 2016

Belgrade

Aim of the Conference

The 13th International Conference on Fundamental and Applied Aspects of Physical Chemistry "**PHYSICAL CHEMISTRY 2016**" is organized to bring together scientists from all domains of Physical Chemistry in order to exchange their recent experience and achievements, and to improve scientific co-operation.

The Organizing Committee has the pleasure of inviting you to participate at **PHYSICAL CHEMISTRY 2016**.

Scientific program

The Conference will include plenary and section lectures delivered by invited foreign and national scientists, as well as oral and poster presentations. The following tentative topics will be covered during the Conference:

- | | |
|---|--|
| A. Chemical Thermodynamics | I. Solid State Physical Chemistry |
| B. Spectroscopy
Molecular Structure
Physical Chemistry of Plasma | J. Macromolecular Physical Chemistry |
| C. Kinetics
Catalysis | K. Environmental Protection
Forensic Sciences
Pharmaceutical Physical Chemistry |
| D. Nonlinear Dynamics
Oscillatory Reaction
Chaos | L. Phase Boundaries
Colloids
Liquid Crystals
Surface-Active Substances |
| E. Electrochemistry | M. Complex Compounds |
| F. Biophysical Chemistry
EPR Investigations of bio-systems
Photochemistry
Radiation Chemistry | N. General Physical Chemistry |
| G. Radiochemistry
Nuclear Chemistry | O. Geophysical Chemistry |
| H. Material Science | P. Education
History |
| | Q. Food Physical Chemistry |
| | R. Physico-Chemical Analyzes |
| | S. Free Topic |

Contributed papers

The papers will be divided into oral presentation and posters. The Scientific Committee retains the option of deciding on the presentation form, based on the number/type of contribution, but will try to take into account the author's expressed preference.
